# DRILL/JUMPER GUIDE

## INSTRUCTIONS FOR PRINTING DRILL GUIDE

⊕ Turret --- drill size is 3/32"

⊕ Standoff – drill size to fit

⊕ Hole for wire pass thru – drill size to fit

----- Dashed lines are underboard jumpers

Board size is 3-1/8" X 7-1/8". Print 2 copies of this drill guide FULL SIZE on letter sized paper. Use one template as a drill guide. The other template will be used for installing jumpers. Measure the board length of the printout to verify it is 7-1/8". Attach to blank board using double sided carpet tape or spray adhesive. Use a center punch to put a mark at the cross hairs of each turret, standoff, and hole. Use a 3/32" drill bit to drill all holes. Then enlarge holes as needed for standoff screws and wire pass thru. Remove paper template from board and clean board thoroughly using mineral spirits and denatured alcohol. Load turrets.
